

Always feel at home

Simple Home Monitoring  
Know what's happening at home...  
anywhere, anytime.

The advertisement features a woman in the foreground, smiling and looking at her smartphone. The phone's screen displays a live video feed of a young child sitting on a floor next to a dog. In the background, a large, modern house is shown at dusk, with its interior lights glowing. A small inset image in the top left corner shows the TEC FusionHM camera device, which is a black, cylindrical unit with a lens and a microphone. The overall scene conveys a sense of safety and convenience in home monitoring.

# USER GUIDE

**1)** Use the cord provided with the camera to connect camera to your computer's USB port.

NOTE: A blue light indicates a successful connection to your PC. A flashing purple light indicates the camera is ready to connect to your network.

**2)** Find the camera icon  and double click to begin.

To locate the camera icon from:

Windows:

Select “Open folder to view files” from the AutoPlay window.

TIP: If the AutoPlay window doesn't automatically launch, try the following:

Windows 8 & 10: Use the Windows search tool  to find and open “File Explorer”.

Windows 7 and Older: Click on “Start” or  and open “Computer”.

Mac:

Click the Finder icon  to display the Finder window. The camera icon or file name HDP-1000 should be located under the DEVICES list.

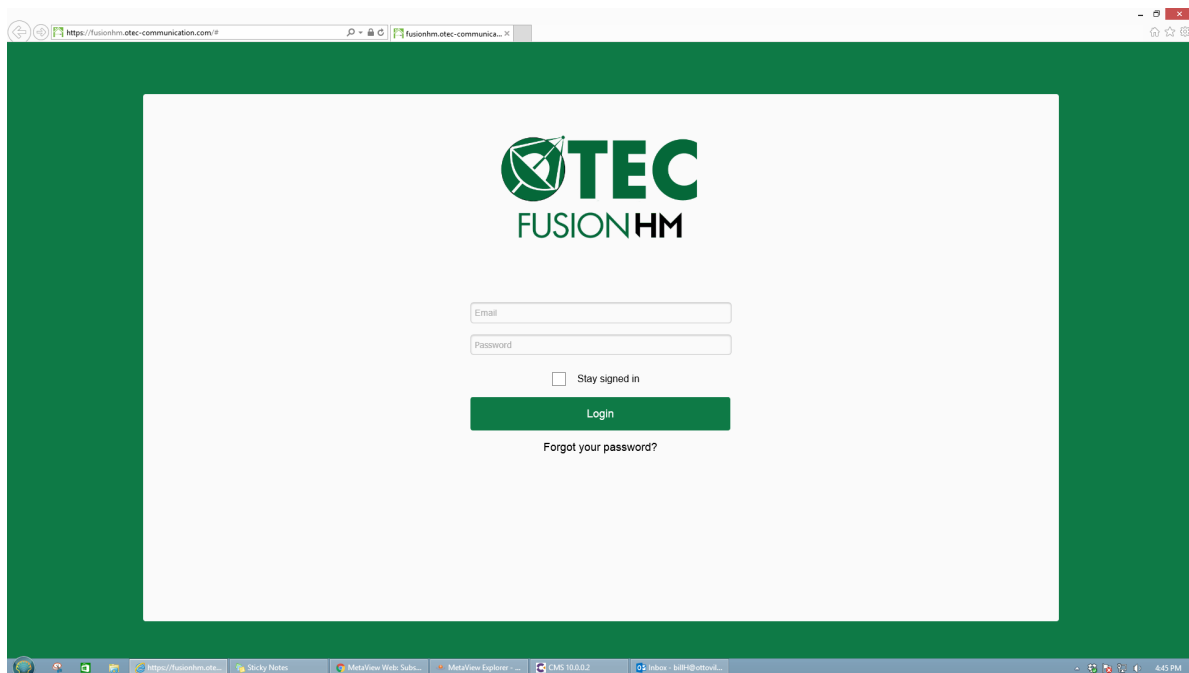

**3)** Follow the on-screen instructions to complete the setup process, which includes account creation and finding your wireless network.

Important: Do not unplug the camera from your computer until prompted.

**4)** After disconnecting camera from computer, place it anywhere within range of your wireless network and connect it to the power supply provided with the camera.

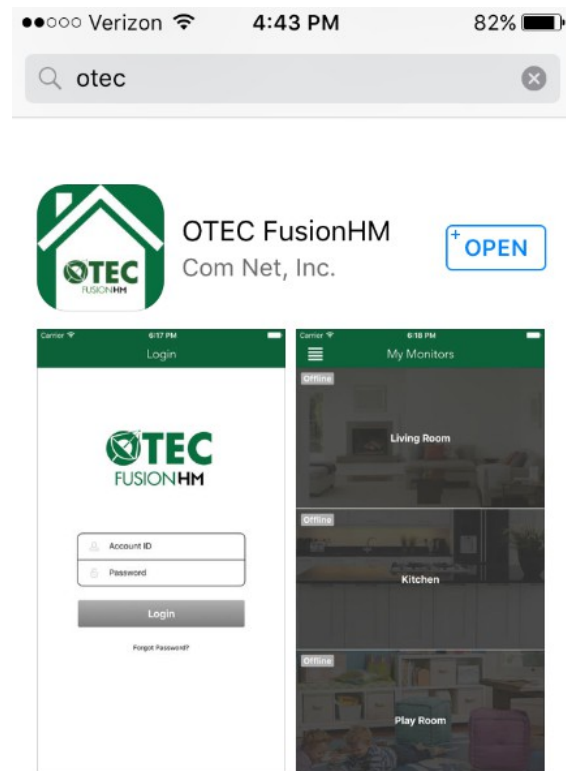

**5)** From your computer go to:

<https://fusionhm.otec-communication.com>

Login with account information created in step 3 to view live and recorded video, add email addresses for notifications, and schedule when to receive alerts.

6) From your smartphone or tablet, go to the Apple App Store or Google Play Store and search for the OTEC FusionHM app.

Login with account information created in step 3 to view live and recorded video from anywhere, anytime.
